Tapes are only repaired for the purpose of having **Put it on DVD** transfer the recordings to DVD or CD.

The Cost of the repair is separate to the Cost of the transfer

Example of Repair cost (VHS Tape)

- If a Video tape has broken, it would cost \$20 to repair
- If a Video tape has several breaks, it would cost \$25 to repair
- If a Video tape has several breaks, and mild mould it would cost \$30 to repair
- If the same tape had a damaged internal mechanism of the casing, then it would cost an extra \$10 for the tape to be wound into a new case.

Don't forget to then add the cost of transferring the Video to DVD
